

The SICTOM is now equipped with a new access control system for its recycling centers. It replaces the old magnetic badge system with contactless cards, which are more reliable over time.

How to use it ?

Simply hold your access card in front of the card reader to open the barrier or present it directly to a recycling center attendant.

You are granted 26 passages per year, which are automatically renewed every January 1st.

Opening hours and days of the recycling centers
